

REMARKS

This amendment is responsive to an Examiner's Amendment of the claims and merely corrects minor matters of form. The claim amendments do not affect the scope or substance of the claims and thus are proper for entry after allowance.

Specifically, Claim 24 has been amended to remove the occurrence of the word "and" following element (e) of the claim. The removed word is redundant in view of the word "and" added by the Examiner's Amendment following element (f).

Claim 29 has been amended to remove a repeated word "the" in the claim.

Lastly, Claim 33 has been amended to correct the spelling of the word "provide," as included in the Examiner's Amendment.

Applicants respectfully request entry of this amendment into the application file.

Respectfully submitted,
